You get what you paid for, 5K achievements at minimum price. If you're an achievement hunter looking to increase the number of achievements on your profile showcase, then I highly recommend buying this. Else don't waste your money. This is not a game, it's just a way of distributing achievements.. Bought it on sale. It would be worth a couple.. A very nice if small collection of puzzles. Nice pictures of animals and easy to solve. The 5000 achievements unlocking all at once.... A bit much.. Trials of the Illuminati: Amazing Wildlife Jigsaws is a poor title for this game. It should be called "Game of the Year 2017"

Stunning Visuals,  
Beautiful soundtrack,  
Excellent gameplay.

I paid 20 cents for this! lmao. I've waited years for this game to release!

Can't wait for the sequel "Amazing Phonebox Jigsaws - The Awakening"

If you're looking for amazing wildlife pictures that you have to put together yourself I can't fault this game, It does just that.. The puzzles are okay, but it needs to be where you have to earn the achievements for completing the puzzles in the various modes instead.. for achievement hunter very good, 10/10 for all others not really, because it's just an achievement game..

Play with very easy achievements.
